

JATIN PRAJAPATI

AI/ML Engineering Intern | Machine Learning · Python · Data Science · UI/UX
+91 9630147107 | prajapatija7in@gmail.com | linkedin.com/in/ja7in | Bhopal, MP, India

PROFESSIONAL SUMMARY

Results-driven AI/ML Engineering aspirant pursuing a B.E. in Artificial Intelligence at RNTU, with hands-on internship experience building and deploying machine learning models. Combines a strong foundation in Python, data analysis, and model development with a unique cross-disciplinary background in UI/UX design — enabling end-to-end delivery of intelligent, user-centered applications. Proven ability to contribute to real-world projects, mentor peers, and collaborate in team settings. Seeking an AI/ML internship to apply research-backed skills to scalable, impactful solutions.

TECHNICAL SKILLS

Programming & ML: Python, C++, scikit-learn, NumPy, Pandas, Matplotlib

AI/ML Concepts: Supervised & Unsupervised Learning, Neural Networks, NLP (basics), Model Evaluation

Data & Analytics: Exploratory Data Analysis (EDA), Data Preprocessing, Feature Engineering, AWS Solutions Architecture

Design & Prototyping: Figma, Adobe Illustrator, Canva, UI/UX Design Thinking

Web & Tools: HTML, CSS, JavaScript, Git, VS Code, Jupyter Notebook

Soft Skills: Team Leadership, Cross-functional Collaboration, Problem-solving, Mentorship

EXPERIENCE

AI & ML Intern

Dec 2025 – Feb 2026

3Skill · Bhopal, MP, India

- Designed and implemented supervised machine learning models in Python using scikit-learn, improving classification accuracy by an estimated 15% through iterative feature engineering and hyperparameter tuning.
- Performed end-to-end data preprocessing pipelines — including cleaning, normalization, and EDA — on real-world datasets, reducing model training time by ~20%.
- Collaborated with a 3-person team to document model performance metrics and present findings to mentors, demonstrating strong communication and analytical skills.
- Applied data analytics techniques (correlation analysis, visualization with Matplotlib/Pandas) to derive actionable insights, supporting data-driven decision-making within the team.

Core Technical Member

Dec 2024 – Present

RNTU Technical Club · Bhopal, MP, India

- Led development and maintenance of 4+ club-facing web tools (event portals, registration systems) using HTML, CSS, and JavaScript, reducing manual admin effort by an estimated 30%.
- Mentored 10+ junior members in Python fundamentals and web development, running structured sessions that improved their project contribution rates.
- Coordinated cross-functional teams during coding challenges and technical events, strengthening team leadership and project management capabilities.
- Contributed to ideation and prototyping of AI-driven club tools, blending design thinking with technical execution to deliver user-friendly solutions.

PROJECTS

AI-Powered Smart Classifier

2025

Personal Project · Python · scikit-learn · Pandas

- Built a multi-class text/data classifier using scikit-learn; applied TF-IDF vectorization and evaluated models (Logistic Regression, Random Forest) achieving ~88% accuracy on test data.

- Conducted full EDA pipeline — outlier detection, missing-value imputation, feature selection — reducing noise in dataset by 25%.

Club Event Portal (Full-Stack)

2024 – Present

RNTU Technical Club · HTML · CSS · JS · Backend

- Architected and deployed a real-time event registration portal used by 200+ students, cutting manual registration time from hours to under 5 minutes per event.
- Designed the UI in Figma prior to implementation, ensuring a clean, accessible, mobile-responsive experience aligned with design system principles.

EDUCATION

Rabindranath Tagore University (RNTU)

Jul 2024 – Jun 2028

Bachelor of Engineering — Artificial Intelligence

- Relevant Coursework: Machine Learning, Data Structures & Algorithms, Python Programming, Probability & Statistics, System Design Fundamentals.
- Active participant in coding challenges, technical workshops, and AI/ML seminars organized through the RNTU Technical Club.

CERTIFICATIONS & TRAINING

- Deloitte Australia – Data Analytics Job Simulation (Forage)
- AWS – Solutions Architecture Job Simulation (Forage)
- Generative AI Mastermind — Prompt Engineering & LLM Fundamentals
- Microsoft Copilot for Productivity – Microsoft & LinkedIn
- Python Programming Workshop (3hr_workshop_certificate_python)
